DESCRIPTION

FIG. 1 is a perspective view of an air source adapter for a paint ball gun of my invention in use on a paint ball gun shown in phantom;

FIG. 2 is a top plan view of the air source adapter for a paint ball gun;

FIG. 3 is a bottom plan view thereof, based on FIG. 2;

FIG. 4 is a side view of the air source adapter for a paint ball gun of this invention, based on FIG. 3;

FIG. 5 is a top perspective view of the air source adapter for a paint ball gun of this invention, based on FIG. 2;

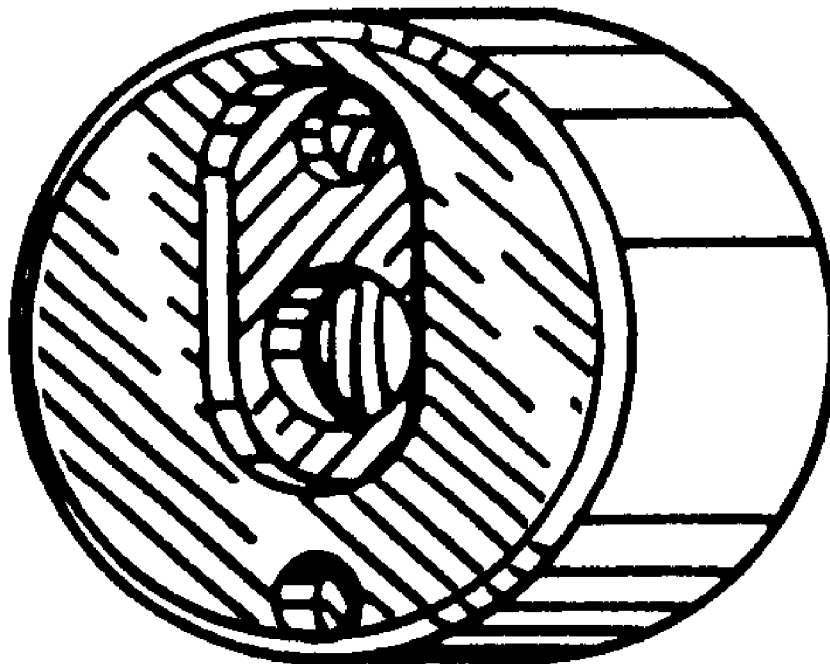

FIG. 6 is a top perspective view of the air source adapter for a paint ball gun of this invention, rotated slightly to the right and based on FIG. 5;

FIG. 7 is a bottom perspective view of the air source adapter for a paint ball gun of this invention, based on FIG. 3 having a slight downward rotation; and,

FIG. 8 is a bottom perspective view of the air source adapter for a paint ball gun of this invention, based on FIG. 3 having a slight upward rotation.

The broken lines shown in FIG. 1 are for illustrative purposes only and form no part of the claimed design.
